## 課程簡介

The understanding and definition of culture will be discussed at the beginning of the course. We will then move on to analyse British and American culture and language differences. Various aspects of global culture will then be dealt with in further language-centred exercises. The course will teach the English vocabulary of cultural studies while simultaneously cultivating a broader understanding of one's own cultural identity, the world, and society. One of the topics will deal with ancient, extinct cultures (a documentary will be watched and prepared with a vocabulary sheet). All the material is fit for this course level and has been chosen for its informative as well as entertaining content. In these times, knowing cultural traits and differences is the keystone to success on any field, be it economy or teaching. The course introduces various research methodologies, terminology, and ways to cultural understanding.
