課程簡介與目標

The second semester of this course continues the training of how to use an academic style manual, but the instructor will now increasingly focus on the students' academic writing skills, such as their argumentation, definition, exemplification, comparison and other writing techniques, or, for example, their ability to conduct a survey and present it in the paper. The proposals from the previous semester now have to be revised, extended, completed and prepared for submission in their final form. Advanced self-study and self-organization skills are demanded from the students in this section of the course. As a final challenge, the students will have to present their paper in some kind of informal oral defense.
