For starters, all members of a new products team (often including the leader) live in a functional area of the firm. Marketing people are supposed to help the entire team succeed, so we have to soften any narrow, functional slants. We have to learn to work with scientists, engineers, lawyers, production managers, and so on.

This course of study calls for a strong c r e a t i v e contribution to enable students to get the following training:

- 1.Be multifunctional, not functionally parochial.
- 2.Be risk takers, willing to do whatever is necessary to bring a product to market, including facing the wrath of co-workers.
- 3.Think like a general manager.
- 4.Be a combination of optimist and realist, aggressor and team player, leader and follower.
- 5.Develop your c r e a t i v e skills, both for new product concepts and for new ways of doing things.

6.Be comfortable in chaos and confusion. Learn to work with depressives, euphorics, and those with no emotion at all.

This course includes: Professional Capability 40%, Exploratory Ability 20%, and Communication, Concernment & Courage, Cooperation, Creativity 10% respectively.
