### 課程簡介與目標

The goal of this course is to give you intensive practice in English listening and speaking. We will accomplish this through discussion of the course theme, western culture and thought. Each week will be devoted to a discussion topic related to the course theme. You will practice expressing your views in English in small groups, and then share them with the class during whole class discussions. In addition, you will take part in the midterm and final group presentations. The presentations and discussions will have four benefits. They will give students an opportunity to develop their English fluency, improve their critical thinking skills, promote a better understanding of the cultural roots of the English language, and serve as a source of the English grammar, vocabulary, and idioms that we will study in class.

### 課程大綱

This course will improve both your English fluency and your understanding of the English language. It is organized as a discussion workshop based on a series of weekly topics related to the course theme, Western history, culture and way of thought. The discussion questions are more challenging and require deeper thought than the materials in most English textbooks. Whatever your point of view, you need to express it clearly and convincingly in English. Before class each week, please prepare by downloading the discussion questions from the icourse system and thinking about them on your own. Your attendance and participation in the topic discussions will account for 60% of your course grade.

In addition to the discussions, you will take part in group presentations for the midterm and final exams. Each presentation will be worth 20% of your course grade.

Regular attendance is essential in this course. More than half of our class time will involve conversation activities. If you are excused for missing a class, you will not lose points. However, you will not be able to “make up” for lost progress. The only way to interact with your classmates is to come every week.

To be excused for missing a class, you must apply for leave through the school’s online system. However, even if you apply, you must talk with me to make sure that I excuse you.
