### 課程簡介

This course takes a student-centered approach to creative writing, offering a range of strategies to help them as a writer by focusing on developing their own style and finding their own “voices.” The emphasis is highly practical, with exercises and activities designed to ignite and sustain the writing impulse. The course starts by showing ways of harnessing the unconscious and recognizing all human senses, followed by the practice of three most popular forms – writing fiction, writing poetry, and life writing.

The course aims to encourage students to explore their personal writing interests and abilities in an imaginative, intuitive and open-minded way. Both, the process of writing as well as an approach to various text forms and stylistic concepts are part of the course content. Proofreading and peer-editing are encouraged. The best works will be collected in a sampler at the end of the course.
