## Introduction

This course is based mainly on the concepts of "learning by doing" and "learning by acting", allowing each participant to understand the development of a play and the psychi of the charactors, which helps students to deepen relationship by having participating in a drama c r e a t e ion and performance, and to enhance their ability to express and communicate via group discussion and c r e a t e ion. The designing concept and content of this couse inculde:

(A) Essential function: by studying classical drama genre, the class explores elements of charactors, emotions, society, history and culture in the development of drama, which will help studentsto study the history, the fundamental structure and spirit of drama development and its influence to people, society, culture and countries. Students will learn to analyze and discuss the influence of the charactors in the drama have had under their history, culture and social background.

(B) Instrumental function: the course helps to cultivate c r e a t e ivity, sense of beauty, self-expression, decision making, respect for environment and others, team work and group identity via practical practice and operation in a drama performance. Students are randomly grouped into discussion and c r e a t e ive writing. The ability to observe, reflect, analyze and solve problems will also improve in the process of expression, communication and integration.

The goal of the couse:

1. to discover the value of art, and to arouse the sense of beauty;
2. to cultivate the ability to critize and appreciate art and literature;
3. to participate in art and literature, and engage in c r e a t e ive innovation.

## Outline
