100-1 Preliminary Syllabus, Da-Yeh Univ

Information

Title		Serial No. / ID	0709 / IEI1025
Dept.		School System / Class	1 1
Lecturer		Full or Part-time	
Required / Credit	Required / 3	Graduate Class	No
Time / Place	( )234 / H727 ( )56 / H727	Language	Chinese

Introduction

Computer-aided graphics is an applied science subject that is very important in engineering education. It is one of the first subjects that engineering students learn about in engineering educational programs. Through training in the graphics field, the learner must be able to clearly draw what he or she has in mind to communicate with other engineering personnel.

Outline

Autocad command and practice
Basic engineering graphics
Three views
Dimensioning

Prerequisite

Concepts of space
