

100-1 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	專案管理	Serial No. / ID	0722 / IEI4025
Dept.	工業工程與科技管理學系	School System / Class	大學日間部3年1班
Lecturer	余豐榮	Full or Part-time	專任
Required / Credit	Optinal / 3	Graduate Class	No
Time / Place	(二)7 / H540 (四)56 / H540	Language	Chinese

Introduction

Project Management developed from different fields of application including construction, engineering, and national defense. Project management is a carefully planned effort to accomplish a specific event, for example, construct a new building, development a new weapon, or set up a management system. The elements of “ project management ” includes developing a project plan, which includes project goals, how goals will be achieved, what resources (manpower and budget) are need. It also includes a careful controls process. Project management usually follows major stages, such as feasibility study, project planning, implementation, evaluation and maintenance. The course is designed to introduce the methods and tools of project management in a realistic context such that students can apply to their future works.

Outline

- 1.Introduction of project management
- 2.Initiating of project management
- 3.Planning of project management
- 4.Executing of project management
- 5.Monitoring of project management
- 6.Closing of project management

Prerequisite

nil
