100-1 Preliminary Syllabus, Da-Yeh Univ

Information

Title		Serial No. / ID	1162 / IFR 5134
Dept.		School System / Class	1　1
Lecturer		Full or Part-time	
Required / Credit	Optinal / 3	Graduate Class	No
Time / Place	(　)678 / H708	Language	Chinese

Introduction

The basic objective of this course is to enable students to:
1. understand the theories of designing e-learning content
2. understand the various modes of e-Learning
3. evaluate the existing network and multimedia e-learning content
4. evaluate the advantages/constraints of e-learning content design
5. understand the theoretical basis of planning the e-learning environment
6. analyze the characteristic of interface design according to the network interaction properties
7. use software packages to design course content

Outline

New Education Trends　　e-Learning
Web Learning Environment
System Platform
The course content of e-learning
Online learning activities
Virtual Organization and Learning Community
Knowledge Management of e-Learning
Learning aspect of e-Learning
Education aspect of e-Learning
Management aspect of e-Learning
Cooperative learning
Online learning impact on education Learning Behavior Analysis

Prerequisite

None
