

# 100-2 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	程式語言	Serial No. / ID	1124 / MAV1011
Dept.	機械與自動化工程學系	School System / Class	四技部1年1班
Lecturer	張義芳	Full or Part-time	專任
Required / Credit	Required / 3	Graduate Class	No
Time / Place	(二)789 / H727	Language	Chinese

Introduction
<ol style="list-style-type: none"><li>1. To have the basic mathematics, science and engineering knowledge of the practice abilities.</li><li>2. To have the use of engineering analysis, design and manufacturing software application capabilities.</li><li>3. To have in engineering-related industries, with the practical problems of analysis and solving ability.</li><li>4. To have knowledge of current affairs issues, understanding of engineering technology on the environment, social and global impact.</li><li>5. To have a professional attitude and the spirit of lifelong learning.</li></ol>

Outline
To offer students the practical use of programming language software, including: <ol style="list-style-type: none"><li>1. To have a programming capability using the programming language</li><li>2. To have the use of programming language and modeling capability</li><li>3. To have a capability using programming language to solve engineering problems</li></ol>

Prerequisite
None
