

101-1 Preliminary Syllabus, Da-Yeh Univ

| Information | | | |
|-------------------|---------------|-----------------------|----------------|
| Title | 通訊系統與模擬 | Serial No. / ID | 1748 / EEI2097 |
| Dept. | 電機工程學系 | School System / Class | 大學日間部4年1班 |
| Lecturer | 陳雍宗 | Full or Part-time | 專任 |
| Required / Credit | Optinal / 3 | Graduate Class | Yes |
| Time / Place | (三)9AB / H371 | Language | Chinese |

| Introduction | |
|--|--|
| by using programming to validate the system waveform of the communications | |

| Outline | |
|--|--|
| signal and linear systems random process amplitude modulation analog to digital conversion pulse code modulation base band digital transmission multi-amplitude signal transmisssion carrier modulation | |

| Prerequisite | |
|------------------|--|
| engineering math | |
