

101-1 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	普通化學實驗	Serial No. / ID	2016 / MHI1002
Dept.	藥用植物與保健學系	School System / Class	大學日間部1年2班
Lecturer	林芳儀	Full or Part-time	專任
Required / Credit	Required / 1	Graduate Class	No
Time / Place	(四)567 / H623	Language	Chinese

Introduction

In this course, our aims were focused on the training of the students experiment skills to learn the principles of chemistry including titration, calculation, kinetics and redox reaction etc.

Outline

Balances operation, pH determination, melting point determine, acid and alkali titration, redox reaction, a constant of reaction rate, equilibrium of chemical reaction.

Prerequisite

None
