Introduction
1 To raise abilities of communication
2 Integrating 4 skills into English communication, especially for professional purposes.
3 Participating international conferences for academic or commercial purposes
4 To fit rubric of business English in intermediate level

Outline
<p>Oral Communication is one of the most complex abilities in English learning. This class, comprehending interlocutors' speeches and express intended meanings in smooth and fluent ways take time to achieve. In this course, several communicative strategies will be provided to release the difficulties in oral interactions in English. First of all, concepts of topic avoidance and replacement semantic will be provide for the speakers who have problems in limited accumulations of linguistics knowledge and background information for the ongoing topics. Second, achievement strategies, such as Interlanguage strategies, restructuring strategies and cooperation strategies will be applicable for speakers who are in a better level of English proficiency. Through applying above strategies, even a non-native speaker will be able to perform their oral abilities in ways closer to the native speakers.</p>
