

101-2 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	電子學技術與實驗(一)	Serial No. / ID	1928 / EEB3001
Dept.	電機工程學系	School System / Class	進修學士班2年1班
Lecturer	李金椿	Full or Part-time	專任
Required / Credit	Required / 3	Graduate Class	No
Time / Place	(四)ABCD / H362	Language	Chinese

Introduction
The principles and applications of electronic will be addressed in this course electronic lab is also provided this course includes

Outline
oscillo pn diode Power supply transistor Vce-Ic common emitter(ce) common collector(cc) common base(cB) Darling pair field-effect transistor(FET)

Prerequisite
APPLICATIONS OF ELECTRICAL ENGINEERING
