Introduction
<p>This is a two semester course in which the instructor introduces students to the challenges and obstacles they are likely to face in their academic writing projects and prepares them to go through all the different stages of such a procedure: from preparation, research, draft, revision, and submission to final presentation or oral defence of the academic paper. Advanced self-study skills and self-organization are demanded from the students in this course.</p> <p>This course teaches advanced study, research and writing skills needed to complete an academic paper according to the APA style manual. Coherence and structure in writing, academic analysis, ethics and presentation methods are taught.</p>
