| Introduction |
|--|
| <p>The biotech industry developed rapidly and became typical representatives for knowledge economy ever since 1980's. This course intends to offer both the theory and practice points of view concerning biotechnology. The status of domestic and foreign bio-industry, trends analysis, government promotion policies, intellectual properties & patents in bio-industry, and bio-industry management strategies will be covered in the series of lectures. Three field trips to marker pharmaceutical biotech sectors and or biomedical academia are planned as well. Throughout the course, the students should be able to understand bio-industry more deeply.</p> |
