Lecturer	林康捷	Full or Part-time	專任
Required / Credit	Optinal / 3	Graduate Class	No
Time / Place	(二)789 / H545	Language	Chinese

Introduction
This course introduces students to issues and problems in the field of environmental ethics. Theories of value are investigated in the effort to clarify the interrelations between persons and environment. Discussions concerning the moral status of the non-human community will not be restricted to debates over value theory alone, but will also encompass metaphysical and epistemological issues that bear upon environmental problems.

Outline
<ol style="list-style-type: none"><li>1.Environmental Ethics: An Introduction</li><li>2.Evaluation of environmental ethical theories</li><li>3.Biocentrism and Zoocentrism</li><li>4.Ecocentrism</li><li>5.Leopold: "The Land Ethic "</li><li>6.Naess: "Deep Ecology"</li><li>7.Social ecology and Ecofeminism</li><li>8.The environmental justice movement</li><li>9.Review of Taiwan ' s environmental issues and pollution history</li><li>10.Sustainable development aspects</li><li>11.Discussion and grouped reports</li></ol>
