Time / Place	(二)789 / H545	Language	Chinese

Introduction
<p>This course introduces students to issues and problems in the field of environmental ethics. Theories of value are investigated in the effort to clarify the interrelations between persons and environment. Discussions concerning the moral status of the non-human community will not be restricted to debates over value theory alone, but will also encompass metaphysical and epistemological issues that bear upon environmental problems.</p>
