Lecturer	張水木	Full or Part-time	兼任
Required / Credit	Required / 3	Graduate Class	No
Time / Place	(二)678 / J310	Language	Chinese

Introduction
<p>This course is designed to present an overview of the systematic approach to curriculum development which has been proposed for use in implementing ESL/EFL program and to look at the practical issues in the design of suitable instructional materials and teaching activities with a set of discussion questions and practical activities. Hopefully, it will enable students to design tasks with proper training.</p>

Outline
<p>After completing this course, the students will:</p> <ol style="list-style-type: none">1. understand the nature of course design and aspects to be considered in instruction.2. familiarize themselves with the model of processes which a course designer must work through to develop subject matters.3. engage in designing their own plans, in terms of the systematic approach to curriculum development, for classroom procedures and materials that best fit the linguistic and communicative needs of their learners.

Prerequisite
修過教材教學法相關科目者或英語文能力俱佳者
