Introduction

The Competency Development Guide is a professional development tool designed for practical use by both prospective and current staff members to aid in developing competency proficiency.   For existing staff and their Manager, the Competency Development can help with increased proficiency in relevant competencies for their current position; or in development of new competencies to aid in career development.

Outline

Each job within the Career Framework has a defined set of core competencies as well as unique role based competencies and specific proficiency levels. The following table illustrates the width of the spectrum of IT professional competencies, showing how technical skills and knowledge share the basis of career success along with business, management, interpersonal and personal attributes.

Prerequisite

EDUCATION, TRAINING, AND CAREER DEVELOPMENT
