

# 102-2 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	工藝技術	Serial No. / ID	2779 / IDV2026
Dept.	工業設計學系	School System / Class	四技部2年1班
Lecturer	卓銀永	Full or Part-time	專任
Required / Credit	Optinal / 2	Graduate Class	No
Time / Place	(三)9A / G504	Language	Chinese

Introduction	
1	Craft Product c r e a t e ion process designed to provide the student must have a robust preparation and foundation.
2	Introduce students to understand the basics of craft c r e a t e ivity and technology manufacturing processes.
3	Students put on the process of craft product design interest and enthusiasm.
4	To enhance students ' self-enrichment technology, and how to make best use of the practitioners.

Outline	
1	Craft Technology curriculum classes, exams, job de s c r i p t ion and performance evaluation methods, craft technology introduced.
2	Craft of cultural and aesthetic concepts.
3.	Craft authoring tools introduced.
4	The initial craft design ideas or c r e a t e ive process.
5.	Craft design object de s c r i p t ions and content.
6	Craft technology research, construction plans and design development.
7	Craft product manufacturing process knowledge and engineering methods introduced ( ).
8	Craft product manufacturing process knowledge and engineering methods introduced ( ).
9	Midterms.
10.	Craft product manufacturing process knowledge and engineering methods introduced ( ).
11	Craft product manufacturing process knowledge and engineering methods introduced ( ).
12.	Craft product manufacturing process knowledge and engineering methods introduced ( ).
13	Craft product manufacturing process knowledge and engineering methods introduced ( ).
14	Practical operation grouping operations & Field trip ( ).
15	Practical operation grouping operations ( ).
16	Practical operation grouping operations ( ).
17	Practical operation grouping operations ( ).
18.	The final exam and the practical operation of the job to pay or show.

Prerequisite	
No requirement
