| Title             | 製造程序導論       | Serial No. / ID       | 0585 / IDD3043 |
| Dept.             | 工業設計學系       | School System / Class | 大學日間部2年1班      |
| Lecturer          | 吳志南          | Full or Part-time     | 兼任             |
| Required / Credit | Optinal / 2  | Graduate Class        | NO             |
| Time / Place      | (四)9A / G506 | Language              | Chinese        |

| Introduction   |
|--|
| <p>Principle, the method, with the technology the study manufacture production, understood how the product does make, strengthened the student with recently to make understanding of the technical to the industrial production manufacture environment, made the related project as the industrial design the specialized foundation</p> |

| Outline  |
|--|
| <p>1) manufacturing introduction. The material nature (2) ferrous metal's production and the casting (3) plastic material with will process hot-working and the cold finishing (5) machine and the cutting work (6) surface treatment (7) higher manufacture the (4) metal processes (8) other future manufacturing process (9) electronic products manufacture method and the technical (10) automation and the computer conformity manufacture</p> |

| Prerequisite |
|--------------|
| Plant practi |
