

97-2 Preliminary Syllabus, Da-Yeh Univ

| Information | | | |
|-------------------|--------------------------|-----------------------|----------------|
| Title | 電子學(二) | Serial No. / ID | 0820 / EEI2008 |
| Dept. | 電機工程學系 | School System / Class | 大學日間部2年1班 |
| Lecturer | 戴江淮 | Full or Part-time | 專任 |
| Required / Credit | Required / 3 | Graduate Class | NO |
| Time / Place | (二)2 / H202 (四)56 / H202 | Language | Chinese |

| Introduction |
|---|
| 1.basic electronic devices 2.basic electronic circuit design |

| Outline |
|---|
| 1.small-signal bipolar transistor application circuits 2.introduction MOSFET 3.DC MOSFET application circuits 4.small signal MOSFET application circuits |

| Prerequisite |
|------------------------|
| basic electric circuit |
