

98-1 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	系統工程	Serial No. / ID	0602 / NGR3047
Dept.	工業工程與科技管理學系碩士	School System / Class	研究所碩士班1年1班
Lecturer	璣憲	Full or Part-time	專任
Required / Credit	Optinal / 3	Graduate Class	NO
Time / Place	(五)567 / H503	Language	Chinese

Introduction
To understand the systematic approach to solve a systems problem.

Outline
<ol style="list-style-type: none">1、 What and why of systems engineering2、 Innovation and Technology Integration3、 System design and process4、 System Specification and WBS Management5、 Design Process Workflow Management and Engineering Planning6、 System analysis and design evaluation7、 Optimization in Systems8、 Business model and Knowledge-based services9、 Case Study(1)10、 Case Study(2)

Prerequisite
None
