

98-1 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	數位通訊系統設計與模擬	Serial No. / ID	1805 / EEI4249
Dept.	電機工程學系	School System / Class	大學日間部4年1班
Lecturer	陳雍宗	Full or Part-time	專任
Required / Credit	Optinal / 3	Graduate Class	Yes
Time / Place	(一)567 / H731	Language	Chinese

Introduction
by using programming to validate the system waveform of the communications

Outline
signal and linear systems random process amplitude modulation analog to digital conversion pulse code modulation base band digital transmission multi-amplitude signal transmission carrier modulation

Prerequisite
engineering math
