

99-1 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	電子學實驗(一)	Serial No. / ID	1756 / EEI3117
Dept.	電機工程學系	School System / Class	大學日間部3年3班
Lecturer	范榮權	Full or Part-time	專任
Required / Credit	Required / 1	Graduate Class	No
Time / Place	(二)9AB / H362	Language	Chinese

Introduction
1.basic electronic devices 2.basic electronic circuit design

Outline
1.diode circuits 2.introduction bipolar transistor 3.DC bipolar transistor application circuits 4.small-signal bipolar transistor application circuits 5.DC MOSFET application circuits 6.small signal MOSFET application circuits

Prerequisite
basic electric circuit
