

99-2 Preliminary Syllabus, Da-Yeh Univ

Information			
Title	工程統計(二)	Serial No. / ID	0456 / IEI3001
Dept.	工業工程與科技管理學系	School System / Class	大學日間部2年1班
Lecturer	鄧志堅	Full or Part-time	專任
Required / Credit	Required / 3	Graduate Class	No
Time / Place	(一)234 / H540	Language	Chinese

Introduction
This is a continuation of Engineering Statistics I. It will cover the point estimation and construction of confidence interval on mean and future values, hypothesis testing, simple and multiple linear regression and one-way factor analysis.

Outline
<ol style="list-style-type: none">1. Inference on parameters and hypothesis testing2. Simple and multiple regression3. One-way factor analysis

Prerequisite
Students must take Engineering Statistics I in order to enroll this course.
